

Fabric and Carpet Stain Protection

Fabric and Carpet Stain Protection

Your vehicle's interior fabric and carpet surfaces are often easy to stain and susceptible to both harmful UV rays and ink/dye transfer.

- Easy to Apply & Clean
- Continuous Stain Barrier
- Works on All Soft Interior Surfaces
- Active on Treated Surfaces 24/7
- Carries the Industry's Highest Safety Rating
- Environmentally Friendly & Hypergreen
- VOC Free

The New Standard for Eco-Friendly Fabric and Carpet Stain Protection Upgrade to the "New Standard" in interior protection with our Fabric and Carpet Stain Protection for your vehicle's interior cabin and trunk. Won't change the look or feel of surfaces!

Why It's Important We drive them, we ride in them, we eat in them, we transport our kids in them, and much more. As a result, cars are more susceptible to damage from common occurrences like spills, stains, and UV fading than anything else we own.

We've Got You Covered with continuous resistance from stains and blue dye transfer. Non-flammable, VOC free, non-C-8 based fluoroalkyl compound and is considered to be Non-PFOA contributing.

How It Works It produces a durable finish that helps all types of fabric retain their fresh new look longer. Can be used on all types of upholstery fabric and carpet including synthetics, natural fibers and their blends.

How It's Different Our Fabric and Carpet Stain Protection is effective on all types of fabric and carpet substrates. It is a fluorochemical finishing agent that provides excellent water and oil repellency as well as soil resistance.

Features and Benefits

Fabric & Carpet Stain Protection Application

Frequently Asked Questions

Where Does Xzilon's Fabric and Carpet Stain Protection Come From?

Xzilon's Fabric and Carpet Stain Protection is a modified Organic (CMO) Elastomeric Emulsion with a one-part water-based emulsion delivery system. These Organic components offer a high barrier resistance to oil stains, UV, weather, and various other stains.

Is Xzilon Fabric and Carpet Stain Protection Safe?

It carries the industry's highest safety rating. It does not affect the color, look, or feel of the fabric or carpet which has been treated.

Why Should I Use Xzilon Fabric and Carpet Stain Protection?

Because accidents happen. It's not if, but when. Our Fabric and Carpet Stain Protection protects from stains with the hydrophobic coating it leaves behind on applied surfaces. Fully protect your investment and retain your fresh new look longer. Cars treated with Fabric and Stain Protection retail for 15% to 20% higher than those without Fabric and Carpet Stain Protection.

Where Is Xzilon Fabric and Carpet Stain Protection Technology Used?

Thousands of automotive and RV dealers nationwide
